Our Partners

Thermolab our Partner for Entire Products

55 years of excellence

Thermolab Group has global Presence with high-quality laboratory equipment and CE approved equipment's in more than 70 countries, 21 CFR part 11/ GAMP 5 compliance software and reporting, audit trails, alarm systems under fully compliance environment covering complete qualification and documentation.

Key Product Range

Stability Chambers: Designed for long-term, accelerated, and intermediate stability studies, fully compliant with ICH guidelines.

Walk-in Stability Chambers – Large-scale chambers with uniform temperature and humidity control, suitable for bulk storage and research applications.

Cold Rooms & Freezers – Reliable storage solutions for temperature-sensitive samples and materials.

Incubators & Environmental Chambers – Providing precise conditions for biological, pharmaceutical, and chemical research.

Customized Solutions – Tailored chambers and systems based on specific client requirements.

-86 Hydrocarbon ULT freezer

Analytical & General Equipments

Sales: We assure to provide the wide range of equipment's Analytical, life sciences and general laboratory equipment's from various OEMs our partners world wide. HPLC, GC, LCMS, GCMS, Gas generators, Elemental Analysis instruments, Ph meter, shakers, Hot plate, muffle furnace, water bath, freezer, vortex mixer, Balances, vacuum pumps, glassware, plasticware and other small equipment for laboratories .

Services: We provide the service and support, Contracts to your lab instruments. By associating with us, for service and support, we ensure to give the best that will leverage our customer's business to the next level

Analytical and Chromatography Consumables

Aerosol Scientific Vials -Aerosol Scientific provides high-quality laboratory consumables, specializing in chromatography vials, caps, and septa under its own brand.

At Aerosol Scientific, we believe in building strong, lasting partnerships. Together with our clients and partners, we empower science and innovation for a better tomorrow. We provide the genuine chromatography consumables and spares for various brand and high end instruments to your lab collaborating with our partners world wide

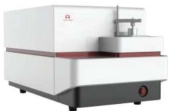

Torontech

Our collaboration with Torontech committed to innovation and cost-effective solution to continuously enhance technology and service offering to our customers. The dedicated divisions cater to a diverse range of sector, including material Science, Quality control & testing. Healthcare, Pharmaceutical, plastic recycling, Fiber Optics, Petrochemicals and other industries and Organizations

Spectrophotometer - Spectrometer

Spectrophotometer - Spectrometer is used to analyze the concentration of elements in the sample being tested.

Pharmaceutical

Test & Analytical

Plastic Recycling

Healthcare

Universal Testing Machines - Tensile Tester

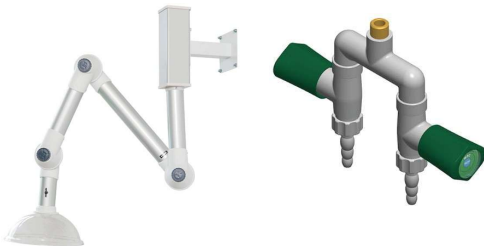

Universal Testing Machines - Tensile Tester (UTM) is used to test both the tensile and compressive strength of materials.

Turn key projects

Aerosol Scientific a company as a one stop solution, where we facilitate our customers to provide the complete solution. Provides Complete Lab setup, Instruments, Laboratory Furniture's, safety equipment's, Fume hoods and fume extraction system, Anti vibration table, Chemical Storage, Laboratory seating, Lab gas system, Lab grade fittings, SS Furniture's, Emergency equipment's and makes your lab full function in a compliance environment including govt approvals.

SAFETY SHOWER & EYEWASH

Why Choose Aerosol Scientific?

- ✓ **Comprehensive Product Range**—Equipment, consumables, and lab furniture's.
- ✓ **Quality Assurance** – Products from reputed global manufacturers
- ✓ **Innovation & Technology** – Cutting-edge solutions for research needs
- ✓ **Customer-Centric Approach** – Technical support and prompt delivery
- ✓ **Competitive Pricing** – Making advanced research accessible

Your Trusted Partner in Scientific Innovation

VISION

- ✓ To be the leading provider of innovative and reliable laboratory solutions.
- ✓ To empower scientific discovery by equipping laboratories with cutting-edge technology.
- ✓ To contribute to advancements in research and development on a global scale.
- ✓ To ensure precision, quality, and sustainability in every laboratory solution we offer.
- ✓ To build long-term partnerships by delivering exceptional value and service to the scientific community.

MISSION

- ✓ To deliver high-quality laboratory equipment and consumables that meet the evolving needs of the scientific community.
- ✓ To ensure customer satisfaction through excellence in products, services, and support.
- ✓ To provide turnkey solutions, technical support, and after-sales services for laboratories.
- ✓ To stay at the forefront of scientific innovation, enabling groundbreaking research.
- ✓ To promote sustainability by offering eco-friendly and efficient laboratory solutions.
- ✓ To foster long-term partnerships with research institutions, testing labs, and industries worldwide.
